This class is open to all that have completed the second part of the Second advanced class. Please review the Rays, understand and know how to use the nervous system and Limbic system before class starts. We will explore and expand on the initiations and delve into practical applications, esoteric significance of events and situations. Topics will include but are not limited to continue the journey into the spiritual triad...why and how? The Updates to the Living in the Moment Piece (and the NTS etc.)_More fun with the Rays, Expansion on the Initiations, Birth Life and Death, Palpation of the Life Thread, and Invoking the Devic Kingdom for Healing. Please send me any additional topics you would like covered ASAP.

We will have fun with initiations...and take dancing with the Rays to the next level! Remember, energy follows thought.

This class will be informative, educational, experiential and fun. We will deepen our Spiritual understanding of life (earth school vs spiritual school). Bring an open mind and an open AND a loving heart. **In addition, do the best you can to know what spiritual initiation you have journeyed through since the first class and how it has affected your life, and what initiation you are at now.**
